PANAMA, June 4.—The folowing particulars of the recent terrible earthquake were received in a letter, dated Salaxar, May 19th: Yesterday a severe earthquake visited this city and region. In the city a large part of the church and several houses were destroyed and some people killed. The City of Circuita was entirely destroyed, only a few families being saved. The German drug store was set on fire by a ball of fire thrown out of the volcano, which is constantly throwing out lava. This volcano has opened itself in front of Santiago, in Redgo Calledelatto de la Giardcha. San Cayotana was destroyed, also Santiago. In the larger part of Gramatti there was great destruction. Artiolada Circutilla and San Cristobal were nearly destroyed. The population of these towns is estimated as follows: San Caylana, 4,000; Santiago, 2, 000; Gramatti, 3,000; Arboleda, 5,000; Circutilla, 500; San Cristobal 1,600. The sections of country referred to embrace the region around about where Venezuela and Columbia join. The Columbia portion, embracing Santander, is in some respects the most productive part of this Republic, and its coffee is famous all the world over. San Jose de Neircula at the time of the disaster had a population estimated at 1,800. It had a large commercial business, and was a great depot for coffee for shipment either through Venezulan ports or down the Magdalena to Panama. The shock was felt sharply in Bogota and adjoining sections. A gentleman who was at the time at Via says the movement lasted for three quarters of a minute.

English Mail.

So great is the increase of working men's clubs in England that a "Club Jonrnal" has just been established to record the doings of the various institutions.

Dr. Kenealy announces that during the autumn he will address four meetings a week, and in every town that invites him he will agitate for "the release of that unhappy gentleman from unjust bondage." He adds that he holds the Norwich election in his hand, but that the Government is afraid to issue the writ.

Lord Grey de Wilton, who represented Bath in the Conservative interest for a few months prior to the last general election, when he was defeated, is to be called to the Upper House, where the will sit with his father, Earl Wilton, Lord Grey will, it is said, take the title of an English baron.

The bicycle championship of England and a cup of fifty guineas were won at the Wolverhampton Grounds by John Keen, of Surbiton, London, his opponent being F. Cooper of Sheffield. The race was one mile, and was run in 3 min. 11 sec., Keen being only a yard in front. There were about 25,000 people present.

A novel but important case has come before the Lambeth Police Magistrate. Arthur Keen, a booking clerk on the Metropolitan railway, was charged with having uttered counterfeit coin by given it in change, and John Neave and Annie Baldwell were said to have supplied him with it. It was stated that Neave had admitted having furnished Keen with as many as 500 coins in one week, and had said that several other booking clerks were passing bad money. The prisoners were remanded in custody.

Recently a battery of the Royal Artillery was ordered to march from Ashford to Sheerness, a distance of thirty-four miles in the day. The weather being sultry, both men and horses were considerably distressed. Two horses fell dead, and several men became ill and were left behind at Sittingbourne.

Australia.

VICTORIA.

The Captain of the R. M. S. Ellora, went mad on the voyage from Sydney to Melbourne. He would insist on steering for Western Port, as a short cut for Melbourne. Eventually Captain Standish, who was a passenger, had him arrested and confined. Four loaded revolvers were found in the Captain's cabin.

The National Bank has declared a dividend of ten per cent., and a bonus of £2. The local Ice Company has also declared a ten per cent., dividend.

Madame Rastoul has written to the "Argus," stating that her husband and other prisoners escaped from New Caledonia because they were condemned to death by a slow process of starvation.

Mr. Carroll, M. L. A., for the District of Ararat, has been committed for trial on several charges of forgery, while acting as agent for Goldsbrough & Co., wool brokers of Melbourne. It is stated that the whole of the cases of alleged fraud amount in the aggregate to several thousand pounds.

SOUTH AUSTRALIA.

Judge Wynne has strongly advocated the use of the cat-o'-nine tails as an instrument of punishment for wife-beaters.

The Colonial expenditure is at present considerably in excess of the revenue. The South Australian "Register" shows that in the face of an impending deficit further taxation will be necessary.

At public a dinner, one of the members of the South Australian Legislature, Mr. Ebenezr Ward, advocated the federation of the Australian Colonies.

POLYNESIA.

At Lifu, Friendly Islands, on the 29th of March, there was a sharp shock of earthquake, which lasted some time, and it was followed by other shocks during the night and the following day. On the succeeding night there was only a slight shock, when it was hoped all was over. On the evening of the 30th, there was a frightful earthquake, which scared all the inhabitants. On another side of the island, after one of the shocks of earthquake, a great tidal wave swept away three villages. A number of lives were lost, chiefly those of women and children, altough the natives are such excellent swimmers. On the 1st of April there had been reckoned, from the 28th of March, thirty-two earthquakes. The church at Wide Bay had been badly crushed at one end. It was pitch dark when the tidal wave came upon the land.

Ayer's Hair Vigor
FOR RESTORING GREY HAIR
TO ITS NATURAL VITALITY & COLOR

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stablished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

mh10 LONDON MARKET

Daily British Colonist.

WEDNESDAY MORNING, JUNE 23RD, 1875.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

Central and South America.

From files of the Panama "Star and Herald," to May 25th, we glean the following:

A private letter from Payta states that the laborers contracted by Mr. Blume for the railroad went on a strike on the 2d instant, and led by their ring-leaders went and sacked the churches of Piure and Colon, took all the clothes off the saints and stole the custodia.

During the month of April ten vessels of different nationalities carried from Pisagua 184,412 quintals of nitrate, leaving five vessels loading on the last of the month.

The Nicaragua papers to the 8th inst. are chiefly taken up in expressing more or less satisfaction that the long existing unfriendly relations between Nicaragua and Costa Rica now put on the appearance of a speedy and pacific termination.

The execution of Melendez, the murderer of ex-Vice President Melendox, took place at San San Salvador on the 29th of April last. Such was the indignation still felt by the people against this assassin that the day of his punishment became quite a feast. All business houses were closed and the streets were full of people. The murderer, guarded by a strong military force, was conducted from the government house to the cemetery where he was shot in a very bungling manner. Twenty-three shots were fired at him before he was dead. On his way to the place of execution he showed a great deal of "sang froid" and marched steadily carrying a cross in his hand. On arrival at the place he tied the handkerchief himself over his eyes, stretched out his arm over the cross and thus was despatched.

So many people are becoming crazy in Chile that it is looked on as a sort of endemic.

Small-pox is still frightful in San Javier.

Garcia Moreno has the majority of votes for next President of Ecuador. In Guayaquil business is still very dull. A great many cases of mania are taken place and dysentery is filling the hospitals with fatal cases of that disease. Passengers just fron Guayaquil say 500 cases were reported to be in the hospital. Mumps also was very prevalent.

Another Spiritual Exposure.

A very clever and amusing expose of Spiritualism has just taken place at Birmingham. Two leading Secularists took it into their heads—being moved thereto by the spirit of evil—to try the produce 'manifestations.' They were marvellously successful, and the Spiritualists rejoiced exceedingly; behold! two noted Secularists were becoming mediums; much praise was showered upon Secularism for its noble efforts to discover truth; in the Spiritualist camp were great feastings, and letters poured into the city papers—dissertations on the triumph of the new religion. Sweetmeats were showered from the ceiling, eggs and oranges were slipped into the sitters' clasped hands; flowers fell in fragrant floods; writing was traced on many papers; a cocoanut recognized by a Spiritualist as his own veritable property was transported from the owner's house to that where the spirits were 'manifesting.' Never had such tests been submitted to as those allowed by 'the Secularist mediums' every possibility against trickery and knavery was guarded against, and yet the phenomena went on; nay, in broad daylight the table danced, as one passed. At last some 'mediums' who came to report declared they could see the spirits at work; one lady saw a 'gigantic figure;' and others saw 'the wings of the attendant spirits who were present.

This was the culminating point of manifestations that had been going on for weeks. Mr. Reddalls, one of the 'infidel mediums,'' was lashed to a chair; the gas was turned out; all the strange phenomena went on; and finally "Mr. Reddals was found lying at full length on a table behind the circle, having become loose from the rope, and, as the Spiritualists affirmed, carried over the heads of those present. Several gentlemen emphatically stated that they had felt him floating in the air." But, alas for Spiritualism. Mr. Reddalls asked if all were satisfied that spirits were present, and the Spiritualists said "Yes." Then, "in a somewhat sarcastic speech," he avowed that all the "manifestations" had been deceptive, and "that, in thus disclosing the utter folly of Spiritualism, he wished to prevent people not only wasting their time, but their money on those who, out of mediumship, made a living by preying upon the superstitions of their fellows." Mr. Reddalls has really done common sense a great and a much need ed service, and the commotion in Spiritualistic circles is terrible, and the consternation is deep.

An application from C. Bossi was withdrawn, and one from W. Hodges, being opposed by Inspector Bowden and Mr. Russell on the ground that it had not the number of signatures required by law (7.10ths of the inhabitants of the district), was deferred, and the Court adjourned till Monday next.

A Locomotive on Legs.—At the sitting of the Academy of Sciences a short time ago M. Tresca exhibited a model of a locomotive engine now being tried on the Eastern Railway. This engine has no wheels, but what may be called legs. It does not roll; it walks, runs, or gallops. It is like an ordinary railway engine with rods terminating in broad circular skates. There are three legs in front and three behind. The moving cylinders, instead of turning wheels, raise the feet, and the whole acts something after the fashion of a three-legged horse. This invention is especially adapted for carrying great weights up an incline. The engine at work on the Eastern Railway weighs ten tons, and does seven or eight kilometres an hour, and can accomplish, if desired, twenty kilometres. Of conrse, this new style of locomolive is not likely to displace the one now in use, but it is especially applicable to mountain railways, and is a step in a new direction. The model exhibited at the Academy of Sciences ascended an incline of 25 degs. with ease.—*London Times.*

To-Morrow night—Gilder's farewell concert and positively last appearance of Mr. Gilder and the artistes accompanying him in this city. In addition to a Grand Concert will be presented, for the first time in this city, Offenbach's famous comic operetta of "Le Rose de St Flour." Miss Galton and Mr. Whiffin have played this opera over 500 times, and have made a great "hit" in New York, Boston, Philadelphia and other cities. Mr. Whiffin's great talent as a comic actor, as well as a singer, is seen to advantage in this operetta. The music is sparkling and brilliant and the situations are extremely comic. Mme. Babcox will assume the character of "Lisette" for the first time. Miss Galton assumes the *role* of "Pataton," a shoemaker, and Mr. Whiffin that of a blacksmith.

New Colonial Hotel.—Plans are being prepared and arrangements perfected for a new Colonial Hotel, which will rise like a Phœnix upon the ashes of the old structure. It will be brick, two stories in height, will extend from Wilson Bros. new store on the south and Alhambra Hall on the north, and as far back as the hotel alley on the east, and will accommodate 200 guests.

Militia.—In the Canada *Gazette* of the 5th inst. we see the following changes in the militia of the Province: To be Captain Co. No. 2, Lieut. James Gordon Vinter, from No. 1 Co., *vice* Chas. Edw'd Pooley. To be Lieut., provisionally: James Wm. Douglas, Gent, *vice* Hett, resigned, and the resignation of Ensign William Blair McKenzie is accepted.

Moody and Gladstone.—An amusing episode occurred at one of the Moody and Sankey meetings in London, where the ex-Premier was present. Upon heartily grasping Mr. Moody's hand, Mr. Gladstone said; "I wish I had your body." Mr. Moody made reply: "I wish I had your brains," and with hearty good wishes they parted.

Ball to the Fleet.—At a meeting of the subscribers yesterdad—Mr. G. J. Stuart in the chair, and Senator Macdonald acting as Secretary—it was resolved to hold a ball on or about the 8th July, About 80 gentlemen have signified their willingness to subscribe to the funds. Committees were appointed and the meeting adjourned.

Beaver Rock.—A cofferdam ten feet square will be constructed over the centre of the rock. A shaft will then be sunk to the depth of 12 feet and four headings or drifts driven from the shaft. A large quantity of giant powder will be placed in the shaft headings and the whole exploded by electricity in about 30 days from date.

Mr. Guerra, well known here as a cricketer, left on board the Merchant for Melbourne.

Gilder's Third Concert.

The house was well filled last night. His Honor the Lieut.-Governor and family were present. Mr. Frank Gilder played the opening piece in his usual brilliant manner. "The Child's Vision" was prettily rendered by Miss Galton. Mr. Whiffin followed with Balfe's ballad, "Margaretta," and in answer to the encore favored the audience with "Sally in our Alley." Madame Babcox gained an encore in "Ah vous dirai je" and gave "Come Back to Erin" in very good style. Mr. Gilder succeeded in a piano solo splendidly played and deservedly encored. A two-part song "I would that my love," rendered by Mme. Babcox and Miss Galton in which their voices blended very sweetly followed, and a duett "I Pescatori" sang as an encore by the same ladies closed the first part of the programme. Part the second was a string of gems. First, a rondo from Beethoven, duett, for piano Mr. Gilder and for violin Mr. Whiffin, was encored, and in answer to the demand a sonota by the same composer was given. The audience still calling for more, Mr. Whiffin gave "The Last Rose of Summer" charmingly on the violin; but the comic element getting the better of him he slid off into an imitation of the bagpipes, which produced great laughter. Miss Galton gave "I've been roaming" very well indeed, and Mr. Whiffin sang "Molly Carow" in a style that smacked strongly of the "ould sod," and in response to the encore, gave another laughter moving song, "Oh Mother he's going away." Mme. Babcox came next with a Bolero, "Ouvrez c'est moi," very well rendered indeed. After which Mr. Gilder sat down to the piano to play "God Save the Queen," with one hand while with the other he gave "Yankee Doodle," now one and now the other predominating and both being brilliantly given. A Duett by Madame Babcox and Mr. Whiffin, and then "God Save the Queen" finished one of the finest performances we have listened to for a long while.

A curious Irish speech was delivered in the House of Commons, lately, in a debate on the Peace Preservation bill. A motion for adjournment had been negatived by 343 to 63, when Mr. O'Gorman rose and addressed the House as follows: "When I last spoke here I was in Ireland. (Loud laughter.) It is not so now. I beg to inform the right honorable gentleman at the head of Her Majesty's Government, that if the liberties of my country are to be destroyed by a despotic and insolent majority, these liberties shall die hard." (Great laughter.) Mr. O'Gorman moved the adjournment of the House, and Mr. Disraeli, remarking that after the last speech they would not be in a proper state of mind to continue the debate, assented to its adjournment.

Mr. Carlyle loses none of his quaintness and raspiness of manner as he grows old. Recently on a visit to Scotland, he dined at a house where a neighbor at the table happened to be a very loquacious and officious busy-body connected in some with art. The gentleman's report of Mr. Carlyle was as follows. "Mr. Carlyle is an extraordinary man. He is a perfect nobody in society. He has no conversation. He takes an interest in nothing. For half an hour I endeavored to draw him out on art; no use. Then I tried him on his own subjects, on literature, history, biography; all to no purpose. The man has no power of conversation whatever. At the end of dinner, after being silent the whole time, he suddenly said to his host, 'For Heaven's sake, put me in a room by myself and give me a pipe!'"

The storm extended over the country for an area of 50 or more miles to the southwest. The damage done to farms is very great.

Among the passengers who have recently arrived in England from the West Coast of Africa is the son of Coffee Calcalli, the late King Ashantee. The young Prince, whose name is Coffee Jutea, has been sent home for the purpose of being educated according to the terms of peace was made last year. He is said to be an intelligent-looking boy of about fourteen years of age.

The general revenues in France, says the "Debats" have produced during the month of April considerably more than had been calculated on, the excess being 1,700,000 francs for registration and stamps; 1,700,000 francs Customs; 7,500,000 francs indirect taxes; 300,000 francs on the post-office. This surplus added to that of the first quarter, gives an increase of more than twenty-three millions.

The Bishop of Orleans again comes to the front on behalf of the Roman Catholic Church. This time he attacks Freemasonry, which, in essence and action, he declares to be the enemy of Christianity. He says that Freemasons were largely concerned in the doings of the Commune, and that, taken generally, the craft is a most pestilential affair, the negation of religion, and the enemy of society. The Bishop is particularly severe upon the rites of the order, which he considers ridiculous and savage.

A skeleton, apparently that of a soldier, has been turned up in a bog near Drumquin. It had on a military cloak, and was tied to some boards, with two handspikes on each side. The hands rested on hooked sticks, and there was a waistband with knife, horse comb, common comb, and other articles. There were silver buckles on the shoes and gloves on the hands. The thighs were cased in knee-breeches, over which stockings, strapped and buckled, were lapped. A long cap was on the head, and the hair, which was in perfect preservation, reached to the shoulders.

The "Academy" says: "There have been several attempts made of late years to revive the almost lost art of mosaic. South Kensington has for some time employed its pupils in this mode of decoration, and a school of mosaic has recently been established at Sevres; but we imagine that the process is too tedious to prove attractive to many workers in this impatient age. The wonderful preservation of the examples reduced at South Kensington might well, however, tempt some of our artists to lay aside the "fleeting" art of painting, and work in mosaic "for eternity."

Gambling for enormous stakes still continues in the Kingdom of Monaco. At the saloon of M. Le Blanc, an American is said to have lost recently $150,000, and a Russian Princess $1,500,000, at which she went raving mad. A Scotch Duke won $60,000 in less than half an hour, and lost all of that and a great deal more before the end of the same day. There were three cases of suicide within a week, owing to disastrous losses. The Prince of Monaco receives a yearly rental of $150,000 for the saloon, and hence he is not disposed to disturb it.

The Moscow "Gazette asserts that the Persian Government is much concerned with regard to Baron Reuter and Gen. Falkenhagen's railway concessions. The affair has assumed great importance for Persia from the fact that the Government of Teheran believes that England will support Baron Reuter, and that Russia will sustain Gen. Falkenhagen.

The following is from the London *Solicitor's Journal*:—"The English law presents an extraordinary contrast. On the one side it is held that the negligence of a person having charge of a young child is the negligence of the child and imputable to the child, and that there is no redress if the child is negligently run over. On the other side, it is held that though oysters are negligently placed in a river bed, it is an injury redressable by damages for a vessel to negligently disturb them. The child, were he an oyster, would be protected; but as a child, under analogous circumstances of neglect, he is without redress."

China.

From the Hongkong "Press" to May 15th, we glean the following:

On May 1st, after the preaching and schools were over, about 4 p. m., a man who lives next door to the Methodist Episcopal Chapel in Kingkiang looked into the chapel-keeper's room, and asked if his son was there? "No," replied the chapel-keeper, "he is not here, neither have I seen him." The man was not satisfied, but persisted in saying his son was there, and he knew they had him, and that the foreigners wanted to take his boy's heart and eyes out to make medicine. This seems to have aroused the chapel-keeper's ire, for he replied with indignation that foreigners did nothing of sort, and wondered that the man could be such a fool as to think so. While the two men were arguing the matter, a large crowd gathered in the narrow street, the man shouting at the top of his voice that his son was in the foreign chapel, and that they wanted the boy's heart to make medicine. At the same time the two men took to the last resort of kings, and fought in the narrow street just in front of the chapel; and the crowd began throwing stones at the doors and windows, finally smashing in both, and pouring into the chapel, where in a very short time stools, benches, pulpit, railing, and chairs were reduced to firewood; from thence into the school-rooms, one after the other—then into the class-room, making a clean sweep of desks, tables, stools, chairs, etc.—finally cleaning out the preacher's room, and taking his bed, bedding, clothes, furniture, and everything belonging to him; but the preacher himself got into the settlement, with his wife and child, safely about 9 p. m. A few days afterwards several of the vagabonds were arrested and received a severe thrashing.

We understand that the Chinese Government intend to introduce the quinine, gutta percha, and India rubber plants for cultivation in Formosa; and Mons. Giquel, who has recently gone home, has, we believe, been commissioned to make the necessary inquiries to this end.

A correspondent writes: "I hear that the Chinese were rude to the foreigners at the races at Peking." As the Yunnan affair, as we all know here, is at present being much talked about both by the higher and lower classes of Chinese, as well at Peking as at Tientsin, and as the late and still-continuing exodus of a number of families from the Legations in Peking has led the populace of both places naturally to jump to the idea that the foreigners of the capital are leaving Peking because they are apprehensive of troubles with the Central Government, it does not surprise me in the least that we should now hear the lower orders of people of Peking have manifested their dislike to foreigners at the Peking races.

It is proposed to raise a memorial fund in Shanghai to the late Mr. Margary, the victim of Oriental treachery in Yunnan. The subscription is limited to $5, but any sum from one dollar up to that amount will be received.

Considerable sensation was excited in Hongkong on the 4th of May by the report that a gentleman who has always stood high in the esteem of the residents had been arrested on a serious charge. Mr. Alfred Fry Chambers was brought up at the Police Court that morning and accused of embezzling various sums, amounting to over $60,000, the moneys of Messrs. Jardine, Matheson & Co. The hearing was a private one, and was not concluded until the following day, when the prisoner was committed for trial.

A customs' notification announces the commencement of a new lighthouse outside Amoy harbor.

The Keelung coal-fields are now being surveyed by a mining engineer, Mr. Tysack, whose services were engaged in England for the Fuhkien authorities. The idea is if the engineer's report prove favorable to introduce machinery, with a view to procuring better fuel for the Foochow arsenal, the Chinese men-of-war, etc.

JAPAN.

From the Japan papers of May 22nd we make up the following summary:

The mania for keeping rabbits seems to be on the increase among the Japanese. Wakamatsuya, who lives at Kodzukappara, possessed one which he sold for 80 yen; another, belonging to a pawnbroker at Asakusa, cost 100 yen!

The *Echo* says that forty houses were destroyed by fire in the village of Shinongamura, Gochin, on the 19th ult. On the 24th another fire destroyed 20 more houses; and on the 30th a third fire broke out, and a violent wind impelled the flames, which destroyed almost the entire village. Many people were found burnt to cinders in their beds. Thirty houses are also said to have been destroyed in a fire in Euna-daiko-matchi, Nagasaki.

Political.

Gentlemen Electors of Lillooet District.

Your present representatives to the Provincial Parliament having served their term, you will be called on to elect two others to represent the district for the next four years. Gentlemen, I think that you will agree with me that a change in your representation will undoubtedly benefit the district, I therefore offer myself as a candidate for the representation of your district in the next Parliament, and pledge myself, if elected, to serve you in truth and honesty and to the best of my ability, leaving no stone unturned in trying to secure the welfare and interests of the district and country in general. Being a comparative stranger to some of the electors I feel it my duty, as far as this notice will allow, to acquaint them with my reasons for soliciting their suffrages. Being a Nova Scotian by birth and bred, as it were, under Responsible Government, and knowing and feeling that Responsible Government, when honestly and justly administered, is the best Government yet given to a people. Having spent the last 23 years in traveling through California, Australia, New Zealand and British Columbia—the last 14 years spent here, and having seen and felt the evil effects of an arbitary Government, I therefore feel that experience has taught me which is the best Government. I am therefore prepared to uphold a Government who will give no monopolies in forest, field, mines or fisheries; who will equalize taxation, economize the treasury, immediately survey the public lands, give free grants to actual settlers, and a just franchise to all British subjects; seek indemnification for nonfulfillment of Terms of Union in regard to railroad through British Columbia, and legislate so as to remove all obstacles on our part to the commencement end completion of the railroad through British Columbia. Gentlemen, these are some of the subjects that direct legislation, and you must send men who are determined to see the evils which now crush the country remedied as soon as possible. Gentlemen, if you think I am worthy and capable of representing you in Parliament and do me the honor to accept my services, and elect me as your representative, I can assure you your confidence will not be misplaced.

I therefore beg to remain yours to command,

je23c w JOHN E. LORD, Lillooet.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

This compound of the vegetable alterative, Sarsaparilla, Dock, Stillingia and Mandrake with the Iodides of Potassium and Iron makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of the same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidney, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pistules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

NURSING---PREGNANCY---EXHAUSTION.

Busart's Lactophosphate of Lime Preparations.

The preparations having Lactophosphate of Lime at their base, known as Dusart's Wine and Syrup are the most valuable tonic restoratives known. They promote the formation and the nutrition of tissues, render nurses' milk more rich and plentiful, and aid the formation of the infant during pregnancy. They stimulate the appetite, agree with feeble persons, convalescents, old people, and especially with children to counteract the tendency to rickets.

GRIMAULT & CO'S

Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault and Co., on bottles of an oval shape, the syrup being always of a rose colour.

GRIMAULT & CO'S

Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious disease.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures which result from the use of injections having a metalic basis.

DR. J. COLLIS BROWNE'S

(Ex Army Med Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, or freshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Crump Rheumatism, Neuralgia, Cough, Hysteria, be

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late Inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed

Dr. Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Browne' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyneis prescribed by scores of orthodox remedical prasditioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen tfatal results have followed

See leading article, Pharmaceutical Journal, Aug 1, p869, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered. Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.

CAUTION—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle,
